D*(X) is identified as −1; D*_{1/3}(X) is always −1
Patient 1
D*(X) is identified as 1; D*_{1/3}(X) is always 1
Patient 2
|U(X)| is much larger than |L(X)|; D*_{1/3}(X) is 1
Patient 3
|L(X)| is much larger than |U(X)|; D*_{1/3}(X) is −1
Patient 4
|U(X)| and |L(X)| are comparable; D*_{1/3}(X) is 0
Patient 5
